CONSULT2022

Date:
13 July 2022

Dear Sirs

SCOTTISH ROAD WORKS TECHNICAL CONSULTATION 2022

The Transport Scotland Road Works Policy Team are holding a consultation event that commences on the 13 July 2022 and runs for eight weeks ending on the 07 September 2022. The proposed consultation is required in order to support the Roadworks policy stance following the publication of The Transport (Scotland) Act 2019 (“2019 Act”).

The aim of this consultation is to ask some specific technical questions regarding Qualifications of supervisors and operatives, which is covered in Section 116 of the 2019 Act, and Reinstatement quality plans, which is covered in Section 118 of the 2019 Act. This consultation may well result in the conclusion that the current process is sufficient. Therefore, we have not currently committed to any specific changes or new statute.

In total, there are four questions to answer, three for Qualifications of supervisors and operatives, and one for Reinstatement Quality Plans. In order to provide an answer there is a mixture of check boxes, as well as text boxes which will enable the respondents to explain their views.

We would like your views, supported by evidence where possible, to inform these potential changes. Could you please complete the survey electronically at the following link;
<https://consult.gov.scot/transport-scotland/scottish-road-works-2022>.

In order to limit the use of paper where possible, I would politely ask you to respond electronically. However, if you have any issues providing an electronic response please contact me at the following email address; Luke.Dexter@transport.gov.scot and we can discuss an alternative. The closing date for responses is 07 September 2022.

Yours sincerely,

Luke Dexter
Graduate Engineer
Road Works Policy
